DIVISION OF  
OIL, GAS AND MINING

Dear Mr. Stone:

Thank you for speaking with Sheri Wysong on August 17, 2001 and letting us know your plans to submit a Plan of Operations (Plan) for past mining activity near Antelope Springs.

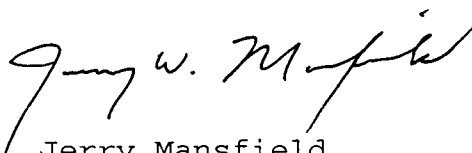

We would like to clarify our expectations for the Plan. In order to defer reclamation of your inactive quarry any longer, you must submit to this office within 15 days of receipt of this letter, an amendment to your Notice stating that you wish to comply with the 43 CFR §3809 regulations that took effect on January 20, 2001. Compliance with the new regulations requires that you must also submit a financial guarantee in the amount of \$7500, the amount which we have roughly estimated it would take to reclaim the disturbance that has so far been created. This financial guarantee must be received by Opolonia Abeyta at the Utah State Office of the BLM by September 17, 2001. Her phone number is (801)539-4123.

Upon acceptance of your amendment, your Notice will be in effect for up to two years, during which time you may not remove more than a 1000 ton bulk sample. Before you remove more than 1000 tons, you must have an approved Plan in place, and your financial guarantee must be adjusted to reflect any new disturbance to be created under the Plan. You will also

be expected to establish an escrow account for the value of the material removed until a validity exam for the claim(s) can be completed.

If you have any questions, please feel free to contact Sheri Wysong at (435)743-3124, or me at (435)743-3125.

Sincerely,

Jerry Mansfield  
Geologist
